ABOUT ME

Programming student with a strong interest in AI and web development.

I have built a full-stack AI study helper using React and Node.js, where users can ask questions and get AI-powered responses.

I enjoy working with APIs, solving problems, and learning new technologies. I am currently looking for an opportunity to gain experience in tech or AI-related roles.

I am especially interested in AI-related and junior developer roles.

PERSONAL TRAITS

- Disciplined and Ambitious
- Strategic and Prepared
- Team Player
- Flexible and Adaptable
- Quick Thinker and Problem Solver

TECHNICAL SKILLS

- JavaScript (React, Node.js)
- REST APIs & async programming
- Git & GitHub
- Basic C#
- AI tools & API integration

LANGUAGES

Danish: Fluent
English: Fluent

PROJECTS

AI Study Helper (GitHub)

- Built a full-stack web application using React and Node.js
- Integrated AI APIs to build an AI-powered tutoring and coding assistant
- Implemented features like question handling and async API calls

GitHub: github.com/likiyadiig/ai-study-helper

Teaching assistant

Børneuniverset | 2019

- Volunteer helper at the children's universe where I played with the children and made sure they had a good time/fun, and as "the young person with a lot of energy" I mostly stayed outside so the children could get out more.

Office assistant

Euro Health Group | 2015-18

- Various office administration, communication and IT tasks, Euro Health Group, Søborg

EDUCATION

Southeast Technical College

Computer Programming | 2025 - Ongoing

TEC Frederiksberg

Data and Communication | April 2022 - 2024

FGU Hovedstaden Østerbro

FGU | 2020 - 2021

10th Grade

august 2017 - juni 2018
